**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Please assure that smaller ISP can survive and serve their communities against the giant size providers ~ the continual existence of small ISPs assure choice and mitigate against predatory costs which only a few giant providers will command ~

Thank you for your attention and your wisdom to make the correct choice in protecting the public consumer from too few ISPs and allowing the consumer some personal protection away from so called free access "hotspots" which include high risks of being spoofed and hacked during connection use ~
